**DEPARTMENT OF DEFENSE
DEFENSE INTELLIGENCE COLLEGE
WASHINGTON, D.C. 20301-6111
OFFICE OF THE COMMANDANT**

28 DEC 1984

U-3892/DTS-50

TO: Intelligence Training Offices

SUBJECT: Weekend Courses at the Defense Intelligence College (Spring 1985)

1. This announcement outlines the Spring 85 schedule of weekend courses that the Defense Intelligence College offers. Recognizing that it is difficult to release your intelligence specialists from their regular duties to attend certain weekday courses, we have developed a series of weekend courses which should interest your civilian and military intelligence professionals:

SR 381 Indications and Warning Short 27-28 Apr 85 and 3-5 May 85
Course (I&WSC)-(5 days) (2 consecutive weekends plus
a Friday)

SR 505 Seminar on National Intelligence 2-3 Mar 85
(SONI)-(2 days)

SR 550 Seminar on Scientific and 13-14 Apr 85
Technical Intelligence
(SOSTI)-(2 days)

SR 510 Seminar on Human Intelligence 27-28 Apr 85
(SOHI)-(2 days)

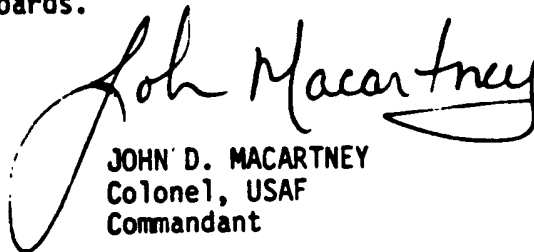

SR 515 Seminar on Reconnaissance and 4-5 May 85
Technical Intelligence (SORTIC)
(2 days)

2. Since the seating capacity for these courses in the auditorium of the Defense Intelligence Analysis Center is now much larger, we can accommodate up to 150 students per class, except for the I&WSC which is limited to 30. (Because of the limited class size, only stand-by quotas are available for the I&WSC.) Accordingly I would appreciate it if you would bring these courses to the attention of your staff and encourage them to enroll.

3. A short description of each of the five Spring 85 courses with additional information on registration procedures and security clearance requirements is provided in the enclosure. We hope that one or more of these courses will meet your needs, and look forward to your participation.

4. I am also enclosing several posters announcing these weekend courses that are suitable for your bulletin boards.

Commandant

**DEFENSE INTELLIGENCE COLLEGE
WEEKEND COURSES
(SPRING 1985)**

COURSE OFFERINGS

The following weekend courses, taught at the Defense Intelligence College, Washington, D.C., provide brief but intensive looks at intelligence subjects of interest to active duty military personnel, members of the reserve components, and civilian employees of the U.S. government who in their present or prospective positions require an understanding of selected aspects of the U.S. intelligence process. These courses enhance the regular weekday instructional program of the Defense Intelligence College. Instruction in each of these courses is provided by a combination of resident college faculty, Air Force reservists assigned to the College, and guest lecturers from throughout the intelligence community. The academic day for each weekend course is from 0800-1700 hours. Acceptance in each of the courses is contingent on receipt of certified security clearances. Attendees must confirm their clearances have been received by the College before proceeding to the course (phone 373-3295).

**I. INDICATIONS AND WARNING SHORT COURSE (I&WSC, SR381)
27-28 Apr 85 & 3-5 May 85 (2 weekends plus a Friday) (Spring 1985)**

Objective: To understand the doctrine, organization, and mission of U.S. Warning Intelligence, including the concepts and functions inherent in this vital process. Achievement of these objectives enhances the students' ability to contribute to the Warning Intelligence mission.

Criteria for Attendance: This course is especially appropriate for intelligence personnel who desire career-broadening professional exposure or for newly assigned supervisors, including reservists, who find it inconvenient to attend the regular College course. However, attendance at this course is not considered a substitute for the two-week I&W course for those personnel who will be filling an I&W billet.

Security Clearance Requirements: TOP SECRET/SI/TK

Enrollment Deadlines: 26 Mar 85 (Spring 1985)

II. SEMINAR ON NATIONAL INTELLIGENCE (SONI, SR505)
2-3 Mar 85 (2 days) (Spring 1985)

Objective: To comprehend the 1) evolution and organizations of the national security structure, including the national security policy formulation process; and 2) current assessments of major geopolitical areas.

Criteria for Attendance: This course is particularly appropriate for personnel whose present or prospective assignments are to intelligence functions requiring an understanding of the national intelligence community and major geopolitical areas.

Security Clearance Requirements: TOP SECRET

Enrollment Deadline: 1 Feb 85 (Spring 1985)

III. SEMINAR ON SCIENTIFIC AND TECHNICAL INTELLIGENCE (SOSTI, SR550)
13-14 Apr 85 (2 days) (Spring 1985)

Objective: To provide an overview of the DoD S&T intelligence community and to illustrate all source S&T intelligence analysis through significant current S&T intelligence case studies.

Criteria for Attendance: This course is intended for intelligence professionals from all intelligence disciplines. This course is not a substitute for the two-week resident Scientific and Technical Intelligence Analyst Introductory Course (STIAIC), which is required at the journeyman level in the DoD S&T Intelligence Professions.

Security Clearance Requirements: TOP SECRET/SI/TK

Enrollment Deadline: 13 Mar 85 (Spring 1985)

IV. SEMINAR ON RECONNAISSANCE AND TECHNICAL INTELLIGENCE COLLECTION
(SORTIC SR515)
4-5 May 1985 (2 days) (Spring 1985)

Objective: To provide an overview of the national and theater-level reconnaissance and technical intelligence collection assets which encompass the intelligence disciplines of IMINT, SIGINT, MASINT, HUMINT and the National Foreign Intelligence Community assets that are responsible for the collection, exploitation, analysis and production of intelligence.

Criteria for Attendance: This course is particularly appropriate for personnel who require a better understanding of collection and collection management. This course is not a substitute for the Intelligence Collection Management Course or the other courses on technical sensors or collection management which are presented by the Defense Intelligence College on a regular basis.

Security Clearance Requirements: TS/SI/TK

Enrollment Deadline: 5 Apr 85 (Spring 1985)

V. SEMINAR ON HUMAN INTELLIGENCE (SOHI, SR510)
27-28 Apr 85 (2 days) (Spring 1985)

Objective: To provide an overview of HUMINT collection management, collection activities, organization, authorization and operational relationships, as well as an awareness of the various uses of HUMINT information.

Criteria for Attendance: The course is for personnel whose present or prospective intelligence assignments require an understanding of HUMINT.

Security Clearance Requirements: TOP SECRET

Enrollment Deadline: 27 Mar 85 (Spring 1985)

It is imperative that your security clearance be passed to the College prior to your arrival. Students cannot be admitted to classes unless clearances have been verified. We therefore advise that prospective students do the following prior to arriving at the College:

a. Check with their Security Officer to insure that clearances have been passed to the College.

(1) For SCI clearances, your servicing SSO must send a message to: SSO DIA WASHINGTON DC//OS-4A//.

(2) For collateral clearances, your Security Officer must send a letter or message (messages have a one to three day delay since DIC does not have a local servicing telecommunications center):

Message address: DIA WASHINGTON DC//DIC-1D//

Mailing address: Defense Intelligence College
ATTN: Security Officer
Washington, D.C. 20301-6111

b. Then call our Security Officer to see if the clearances have been received: Commercial (202) 373-3302 or Autovon 243-3302.

Seminars on

- National Intelligence (SONI) 2-3 March 85
- Scientific & Technical Intelligence (SOSTI) 13-14 April 85
